

## Glass-panelled safes

**Resistance:**  
Grade I according to EN 1143-1  
IMP certified

### Description

Certified safes with glass-panelled main door.

**Outside dimensions**  
(H x W x D mm) 1500 x 550 x 450  
**Inner dimensions**  
(H x W x D mm) 1450 x 500 x 340  
**Weight (kg)** 183

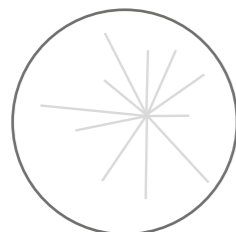

**Body:** multi-walled body  
**Door:** multi-walled door with burglarproof glass panel **P7B**  
**Locking:** 4-way locking bolt system incl. overlapping profile on the hinge side

### Basic equipment

**Lock:** high security key lock I class VdS/IMP with two keys (95 mm) or Stellar Basic electronic lock  
**Boltwork handle:** handle, protruding 60mm  
**Hinges:** External  
**Door opening angle:** 180°  
**Mounting holes:** 1 hole in the bottom, 1 in the rear wall (not drilled)

# Glass-panelled safes

## Burglar-proof glass class P7B according to EN 14449 norm

The **P7B** class burglar-proof glass used in the safes is characterized by exceptional resistance to mechanical damage.

It is a type of laminated glass, which breaks in the event of an impact, but the glass pieces remain in place, thus protecting against injury.

It is designed to withstand as many as **seventy blows from a hammer and axe weighing 2 kg**, with an impact energy of up to **350 J**.

In addition, **P7B** glass offers **high resistance to break-ins**, effectively replacing traditional trussing made of steel bars with diameters up to **Ø16 mm**. Thanks to these properties, glass **P7B** provides excellent protection in situations where protection against mechanical attacks and intrusions is important.

**Glass class P7B** acc.  
to **EN 14449** norm

- burglar-proof
- multilayer
- laminated

# Glass-panelled safes

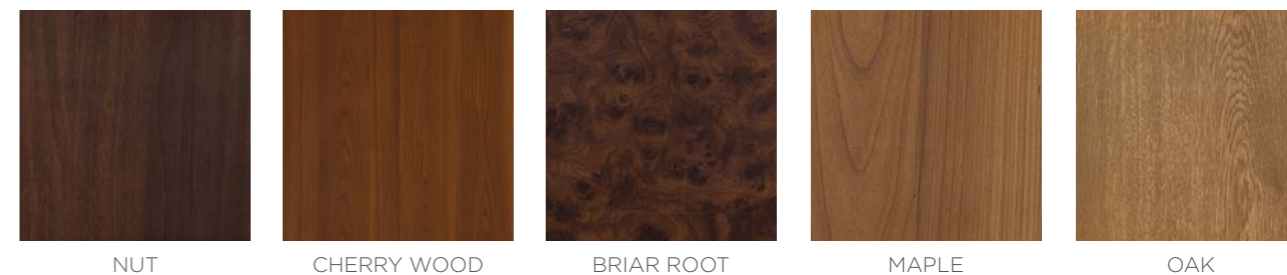

## RGB LED lighting

The safe equipped with **RGB LED** lighting with the possibility to voice control (via Alexa, Google Assistant). Due to the app there is an easy and quick method for changing the light colour (approx. 16 milion colours to be chosen).

**NOTE:** For proper operation of the device, we need a smartphone or tablet, installed LEDVANCE SMART+ WIFI application and internet connection.

**RGB LED** lighting requires an external power supply. Cable outlet is located in the right wall, in the lower rear corner.

## Sublimation colour on request
